C-Today money valuation for each thing is very important & all the human known for this, creation of similar money relation will help to us to save our nature & will make more add on

our Indian GDP,for an exp:- one tree is giving Oxygen , shelter, fruits , wood, medicine, flower, support to other life/nature/water etc...

& one man also known for generation of salary based on his own productivity (Keep in mind without nature support you cannot do anything).

In Man case we are able to compute the MRP(Maximum Retail Price) for his productivity as a salary, but in case of Tree it's not possible because we have not understood the process & reason behind this ,we think its God gift ,I mean we all are ignoring & end of the day we have natural disaster for our
