<b>Learning (Career) from the Course – Valuation of Ecosystem Goods and Services (orgained jointly by ENVIS Centres at IISc and EMPRI, Bangalore</b>  on the first day of session I did not know anything about valuation of Ecosystem Goods and Services but, after Completing the course I know the importance of Valuation and how it affects GDP growth of the country and also direct and indirect benefits to the mankind.			

### Upgraded Profile and your possible role in the future

Since I am working on software development from past 6 years, I might find it difficult to cope with this subject. So, I would like to continue my work in the software domain which is my area of interest. But, I will make sure that I will join NGO's which work towards Environment Management in the near future.
