

## GSDP PARTICIPANT PROFILE

	<b>Name:</b> Raghavendra. C	
	<b>E Mail:</b> iragha@icloud.com	
	<b>Mobile/Contact Numbers:</b> 7019492272	
	PAN	
<b>Date of Birth:</b> 09-12-1989		
<b>Address:</b>  #167, Nandini needs, Nagashettyhalli, RMV 2nd stage, Bengaluru-560094	<b>Education Qualification:</b> BE(ECE)	
	<b>Experience</b>	
	<b>Blood Group</b> O+ve	<b>Allergy</b> NONE
<p><b>Profile (Knowledge and talent –strength)</b>                  Preparing for the UPSC CSE has equipped me with certain amount of knowledge and put me in a jack of all master of none kind of situation. My strengths would be in my observation and the ability understand what’s happening and what needs to be done. I also write screenplay for movies as and when I get a chance.</p>		
<p><b>Learning (Career) from the Course – Valuation of Ecosystem Goods and Services</b>                  (organized jointly by ENVIS Centers at IISc and EMPRI, Bangalore)</p> <p>It’s been an exciting and to some extent exhaustive journey this course. Learnt how important it is to evaluate the ecosystem goods and services, as unless there is a price tag on a particular thing we often don’t understand or try knowing its true value. And by accounting provisional services, regulating services, supporting services and cultural services we can alarm the people of the ignored wealth and also bring in more accountability. Once the data is collected and put up its for everybody to see and its high time people wake up to the cause and spread the word like a revolution. We understand why GDP is a notional value, and want people talk about green GDP.</p>		
<p><b>Upgraded Profile and your possible role in the future</b>                  The course is a feather added to my cap and of immense significance. The knowledge attained would certainly be imparted in all the spheres of my reach and if that could be associated with policy and framework there is nothing like it. This would definitely go a long way and I would want to be a part of it as long as possible.</p>
