

BIRDS OF CHANNAGIRI - DAVANAGERE

Sowmya G S, Vrijulal M V, Chaturved Shet, Raghu B C, Vinay S
Family - Accipitridae to Dicruridae

CEE

Centre for Environment Education

Channagiri taluk has good diversity over 70 species of Avifauna under 41 families. Shantisagara lake, Bukkambudhi lake, scrub jungles and other wetlands are supporting diverse species of which some are migratory. Region has highest potential to be explored for biodiversity studies.

Accipitridae

Milvus migrans
Black Kite

Haliastur indus
Brahmini Kite

Alcedinidae

Ceryle rudis
Pied Kingfisher

Halcyon smyrnensis
White-throated Kingfisher

Alcedo atthis
Common Kingfisher

Anatidae

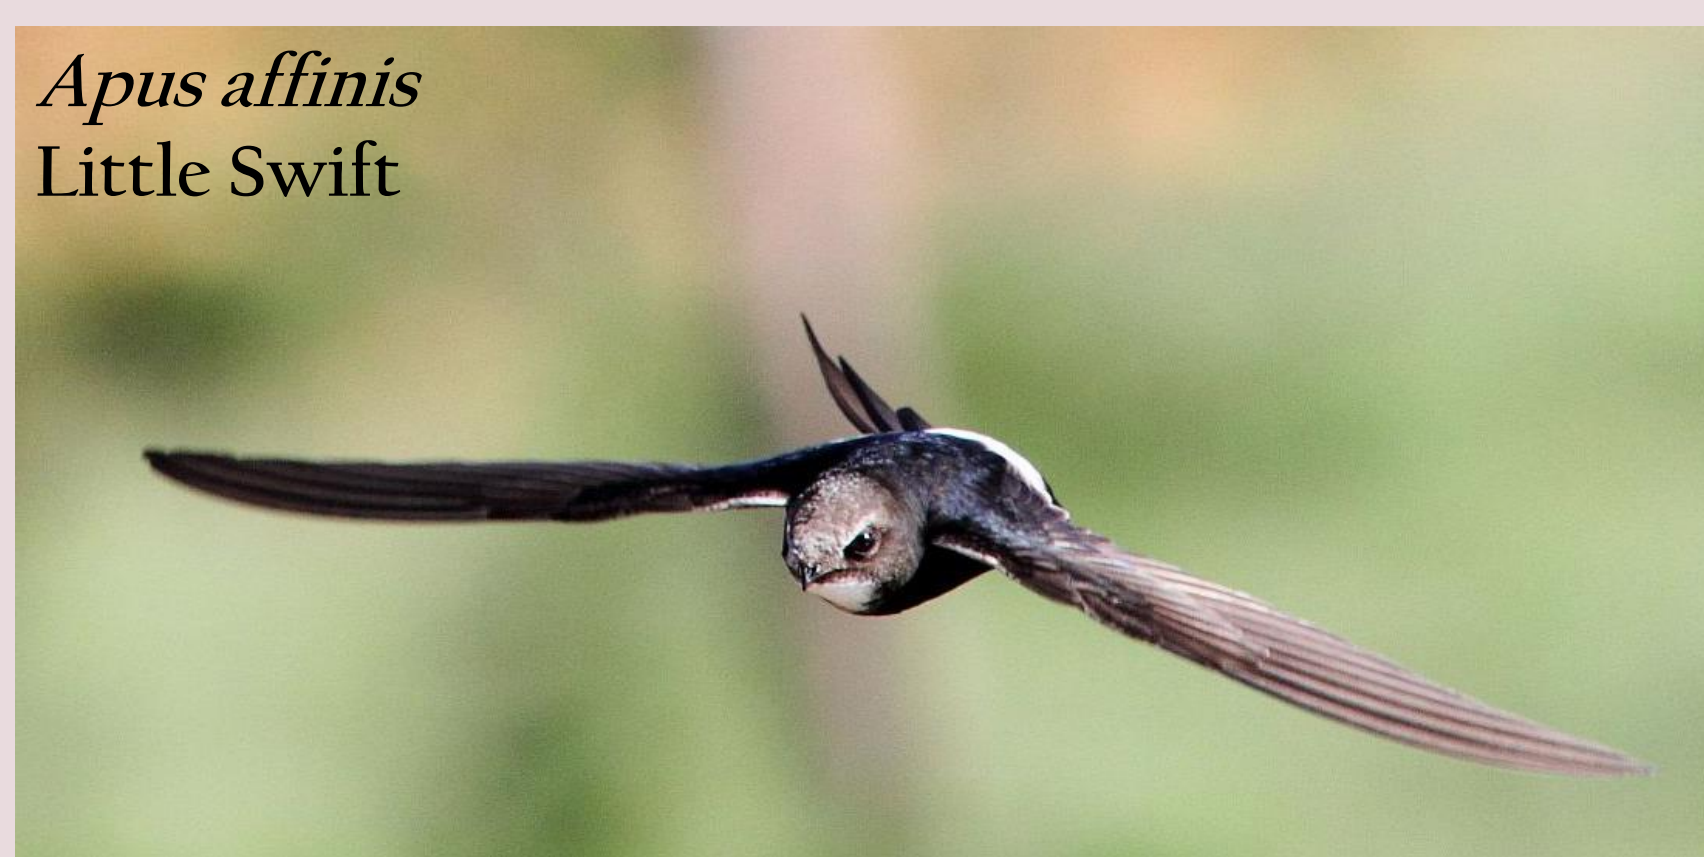

Anas poecilorhyncha
Indian Spot Billed Duck

Anhingidae

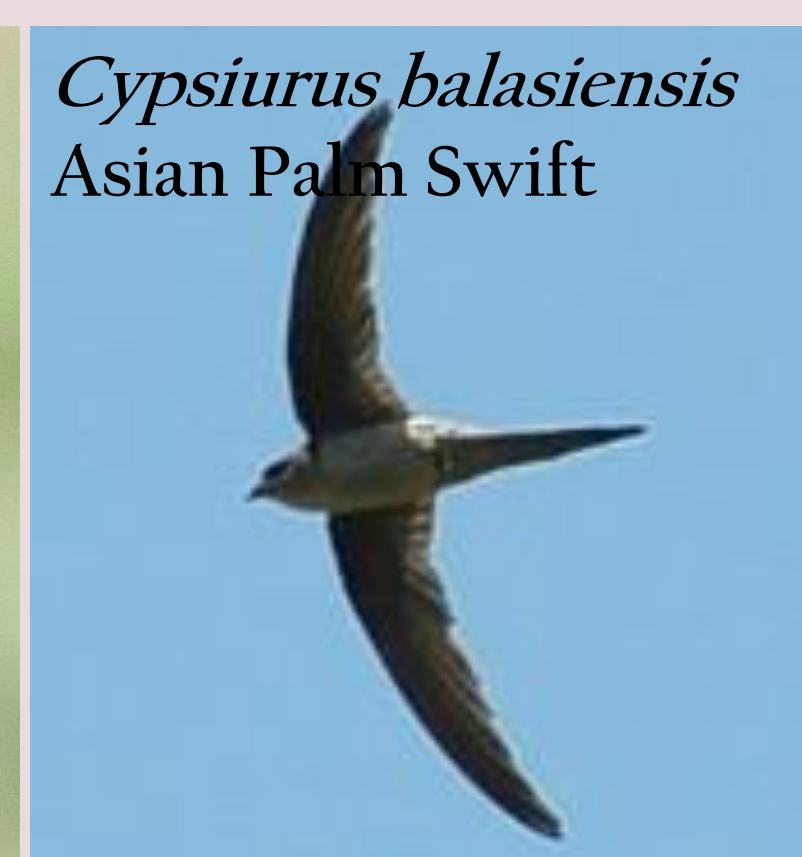

Anhinga melanogaster
Oriental Darter

Apodidae

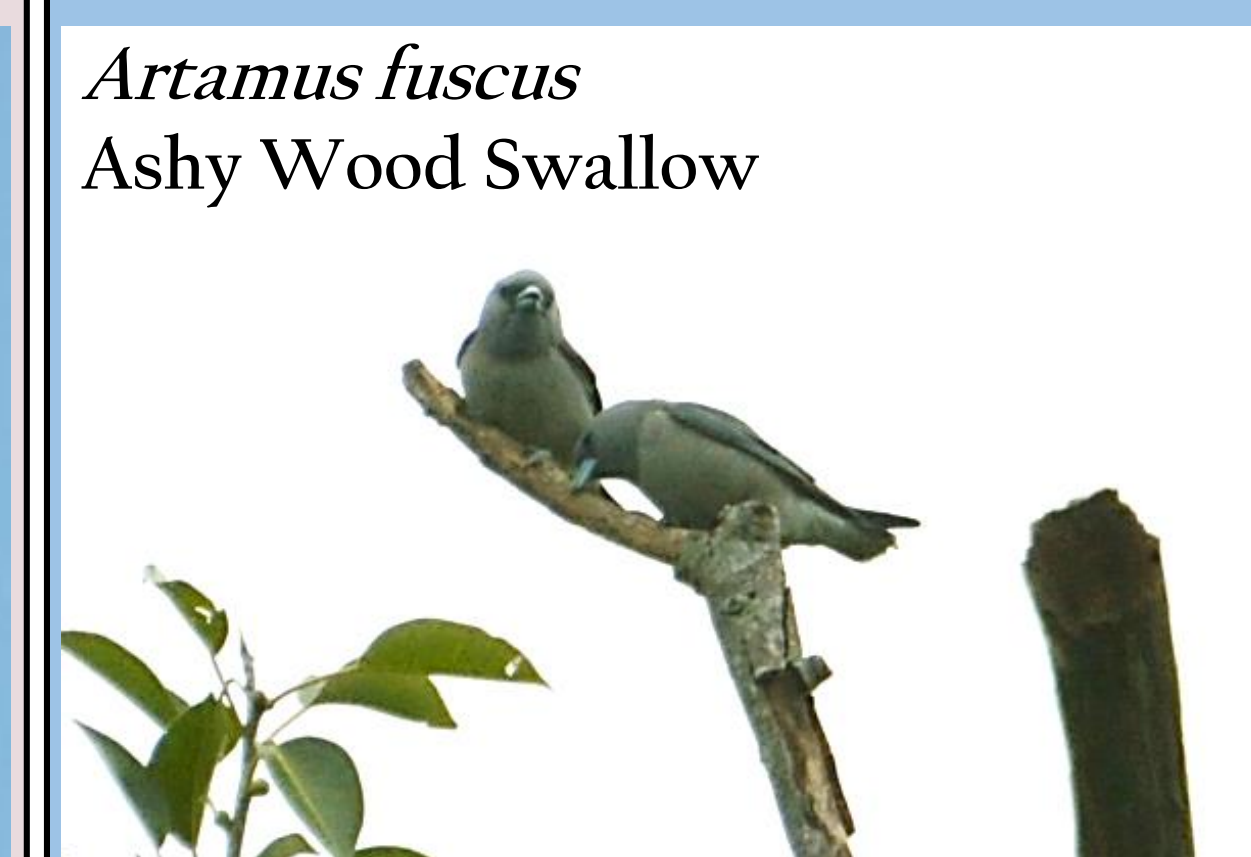

Apus affinis
Little Swift

Cypsiurus balasiensis
Asian Palm Swift

Artamidae

Artamus fuscus
Ashy Wood Swallow

Ardeidae

Bubulcus ibis
Cattle Egret

Egretta garzetta
Little Egret

Ardea intermedia
Intermediate Egret

Ardeola grayii
Indian Pond Heron

Ardea cinerea
Grey Heron

Aegithinidae

Aegithina tiphia
Common Iora

Bucerotidae

Ocyrocus birostris
Indian Grey Hornbill

Campephagidae

Coracina macei
Large Cuckoo Shrike

Cisticolidae

Prinia socialis
Ashy Prinia

Orthotomus sutorius
Common Tailorbird

Charadriidae

Vanellus indicus
Red-wattled Lapwing

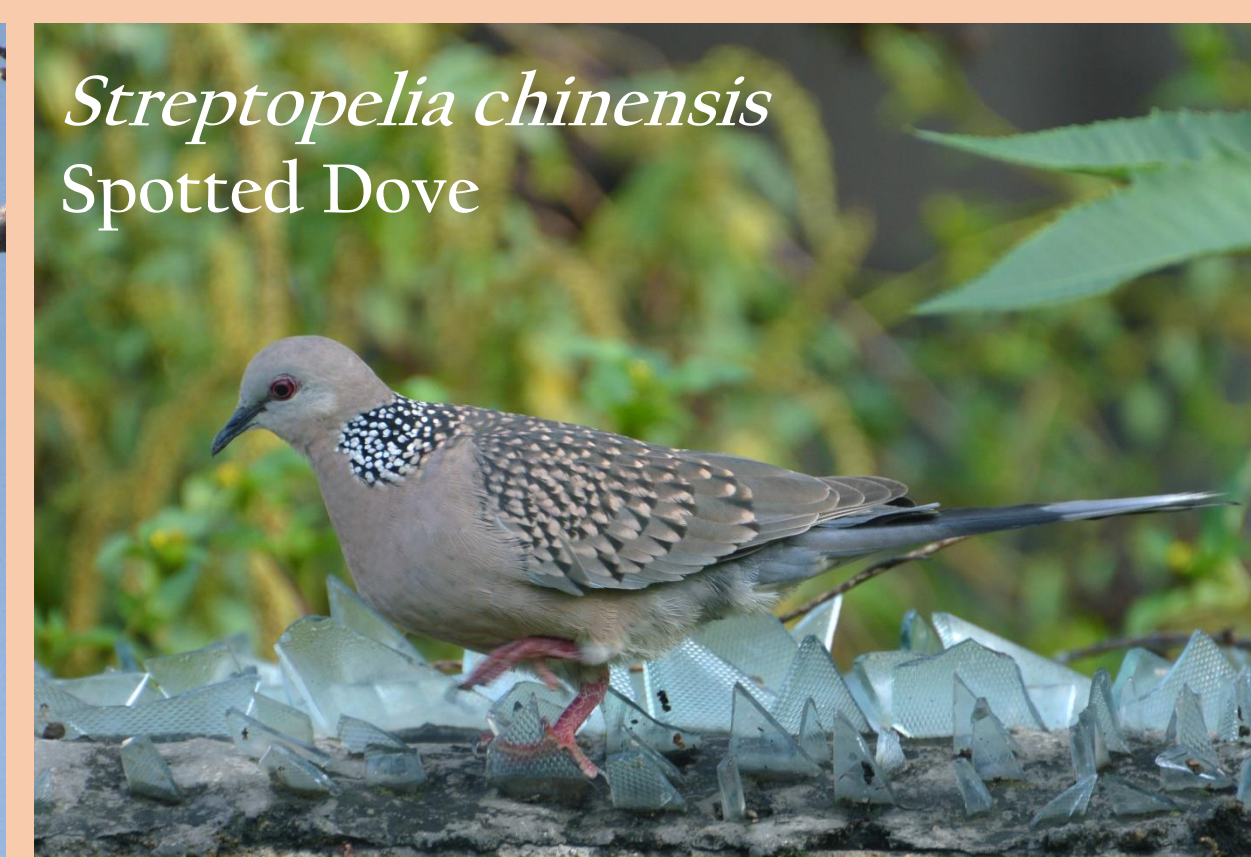

Columbidae

Columba livia
Blue Rock Pigeon

Treron phoenicoptera
Yellow Footed Green Pigeon

Streptopelia chinensis
Spotted Dove

Streptopelia senegalensis
Laughing Dove

Coraciidae

Coracias benghalensis
Indian Roller

Corvidae

Corvus splendens
House Crow

Dendrocitta vagabunda
Rufous Treepie

Corvus culminatus
Jungle Crow

Dicaeidae

Dicaeum erythrorhynchos
Pale-billed Flowerpecker

Cuculidae

Centropus sinensis
Crow Pheasant/Greater Coucal

Eudynamys scolopacea
Asian Koel

Hierococcyx varius
Common Hawk Cuckoo

Dicruridae

Dicrurus macrocerus
Black Drongo

Dicrurus leucophaeus
Ashy Drongo
