INTRODUCTION:

This is an update of 'An Information system for the Birds of the Western Ghats'.

The uniqueness of the birds of the Western Ghats was briefly discussed in the earlier report. However, to make mention of the endemic species and the "special" species of birds in this region does not seem inappropriate. Of the 13 species of birds considered endemic to this region, 2 are not strictly so. The Malabar whistling thrush (Myiophoneus horsfieldii) and one of the 2 forms of the rufous babbler (Turdoides subrufus) extend a little eastward also. The whitebellied tree pie (Dendrocitta leucogastra), the small sunbird (Nectarinia minima), the 3 forms of the laughing thrush (Garrulax jerdoni), Nilgiri laughing thrush (Garrulax cachinnans), the Nilgiri pipit (Anthus nilgheriensis), the Nilgiri verditer flycatcher (Muscicapa albicaudata), the black and orange flycatcher (Muscicapa nigrorufa), the whitebellied blue flycatcher (Muscicapa pallipes), the Nilgiri wood pigeon (Columba elphinstonii), and the bluewinged parakeet (Psittacula columboides) are strictly endemics. The broadtailed grass warbler (Schoenicola platyura) was considered an endemic until recently. However, subspecific forms of the species have been reported recently from parts of Africa (Howard and Moore, 1930). A fourteenth species that may be considered endemic to this narrow strip may be the malabar crested lark (Galerida malabarica), though its northern limit is outside the Western Ghats. Many Western Ghats birds show affinity

to those of the Indo-Chinese region. The Ceylon frogmouth (Batrachastomus moniliger), the fairy bluebird (Irena puella) and the Great Indian hornbill (Buceros bicornis) are a few good examples.

Geographically, the Western Ghats region considered for our purpose runs North to South from little beyond the river Tapti to Kanyakumari occasionally broken in between. On the west it is limited by the Arabian Sea and thus includes the narrow coast also. Its eastern limit is ca 73° E at its northern end, 77° 45' E at the Nilgiris and 77° 30' E at its southern end. Politically it forms a part of Gujarat, Maharashtra, Goa, Karnataka, Tamilnadu and Kerala. The mean width of this strip may be about 120 km. Where the rainfall exceeds 2000 mm a year, particularly along the western face of the ghats, the forests are evergreen/semi-evergreen. Lesser rainfall in the east (1500-2000 mm) has given rise to moist deciduous forest and the least rainfall of less than 1000 or 1500 mm in the extreme east has led to the dry deciduous type of forests. In altitude, the Western Ghats region varies from sea level to over 2600 m above MSL in parts of the Nilgiris and Anaimalais.

Based on the patterns of bird distribution over the Western Ghats region, it has been divided into four subregions. They are:

1. the northern Sahyadris, which extend from southern Gujarat, southwards through western Maharashtra to 16° N latitude.
2. the southern Sahyadris, which include southwest Maharashtra

vis., parts of Savantwadi and Kolhapur divisions, Goa, parts of Belgaum division, whole of Uttara Kannada, Sagar, Shimoga, Koppa and Coondapur divisions, parts of Hassan and Chickmagalur divisions, Mangalore, Mercara and parts of Hunsur division and coastal Wynaad,

3. the Nilgiris - including the hilly Wynaad, Calicut, parts of Mysore, Bandipur, Nagerhole, Malumalai and extending east to meet the Eastern Ghats and south to the Palghat gap and

4. the southern Ghats which extend southwards through coastal Calicut and south of the Palghat gap (see map).

DATA BASE:

First hand field information on the birds of the Western Ghats, particularly those of Uttara Kannada district, collected by one of the authors over a period of time have gone into preparation of this bird information system. These have been complemented by what is available in literature. The following have been consulted in great detail in preparing the checklists and in compiling the various other information which are being maintained in the system.

1. Abdulali, H. (1973a) A catalogue of birds in the collection of the Bombay Natural History Society-14. JBNHS 70(1), 147-155.
2. Abdulali, H. (1973b) A catalogue of birds in the collection of the Bombay Natural History Society-15. JBNHS 70(2), 339-345.
3. Abdulali, H. (1974) A catalogue of birds in the collection of

- the Bombay Natural History Society-16. JBNHS 71(2), 244-265.
4. Abdulali, H. (1981) Checklist of the birds of the Borivili National Park. BNHS, Bombay, pp 10.
 5. Abdulali, H. (1981) Checklist of the birds of Maharashtra. BNHS, Bombay, pp 16.
 6. Abdulali, H. (1982) A catalogue of birds in the collection of the Bombay Natural History Society-24. JBNHS 79(1) 135-151.

INFORMATION PROCESSED AND STORED:

The following information have been stored - all coded numerically or alphabetically. For each set of information, a separate file has been created.

a) File: WGMINE.DAT

This file has been used as a master file. Information on each species of bird has been recorded in this file and it has a total record size of 108 digits per species or form of bird. These 108 digits have been divided into 14 fields. The file structure is as follows:

Field 1: The handbook number for the species/form of bird. This is the retrieval key to all information: 5 digits.

Field 2: The common English name and scientific name for the species/form: 64 digits.

Field 3: The order to which the species/form belongs: 2 digits.

Field 4: The family to which the species/form belongs: 2 digits.

Field 5: The status of the species: 1 digit

Field 6 & 7 : The minimum and maximum beak sizes in mm: 3 digits each.

Field 8 & 9 : The minimum and maximum altitude of occurrence in meters: 4 digits each.

Field 10: The habitat preference of a species/form: 9 digits.

Field 11 & 12 : The minimum and maximum nesting heights above ground in meters: 2 digits each.

Field 13: The mean body length - from tip of beak to the tip of tail, in cm: 3 digits.

Field 14: The degree of threat/proportion of endangered species in the family the species/forms belongs to : 4 digits.

The interpretation of the status, order and family codes have been stored as separate files. The file structures are given below.

b) File : STATUS.DAT

The birds of the Western Ghats have been given 4 different

status viz., Resident, Wintering, Straggler, uncertain.

Status: 49 digits

Code: 1 digit

c) File : ORDE.DAT

Birds of 20 orders are represented in our country. The names of these 20 orders have been numerically coded and stored.

Name of the Order: 49 digits

Code: 2 digits

d) File : FAMED.DAT

According to recent classification, the Indian birds fall under 86 families. Their names have been numerically coded and stored.

Name of the family : 49 digits

Code : 2 digits

e) File : HABBD.DAT

This is a revised version of the 9 habitat types (field 10 of file:WGBINE.DAT) listed in the SHV18-DIC Tech. Rep., No.3. This version is simply a splitting up of the major habitat types into several subtypes and thus we have 24 habitat types under 6 major heads. These 24 have been coded alphabetically. The 2 alphabets I and O have not been used.

The file structure is as follows:

Hand book Number : 5 digits

Habitat Preference: 24 digits

The 24 habitat types:

I. Humid

- A. Rocky cliffs/hill tops
- B. Evergreen forests/sholas
- C. Mixed/semi-evergreen/secondary forests
- D. Grasslands
- E. Degraded open forests (thickets, grass etc)
- F. Areca, coconut, cocoa, banana etc.
- G. Teak plantations
- H. Rubber plantations
- J. Tea, coffee, cardamom
- K. Exotic tree plantations (Eucalyptus, pine, wattle, cypress etc.).

II. Aquatic- Fresh water

- L. Marshes, tanks, paddy fields, reservoirs etc.
- M. Hill streams
- N. Rivers

III. Marine

- P. Beaches (seashore)
- Q. Off-shore (Pelagic)
- R. Estuaries, mangroves, saltpans, backwaters etc.
- S. Coconut plantations

IV. Moist

- X. Teak type forests
- Y. Eucalyptus plantations

V. Dry

- T. Deciduous forest

U. Rocky hillocks with scrub

V. Cultivation

W. Bamboo facies

VI. Z. Urban/sub-urban limits

F. File: GEOBD.DAT

This file contains records of the geographic distribution of each species/form over the World, Orient, Indian subregion and the Western Ghats. Each record has 34 digits in 6 fields. For details see appendix 1.

Field 1: Handbook number: 5 digits

Field 2: Number of subspecies of that species recorded from over the world : 2 digits

Field 3: The major zoogeographic regions of the world : 6 digits

Field 4: The Oriental region : 9 digits

Field 5: Indian subregion: 8 digits

Field 6: Western Ghats : 4 digits

G. File: TAXBD.DAT

This contains information on the relative taxonomic position of each Western Ghats species/form of bird in its family. To avoid confusion due to the constant splitting up of genera and the ever-changing nomenclature, a species' relative position in its genus has not been worked out. However the authentically

recognised number of subspecies under a species has been included. As in other cases each species/form of bird has a record of 13 digits distributed among 5 fields.

Field 1: Handbook number: 5 digits

Field 2: Total number of subspecies recorded in the world : 2
digits

Field 3: Number of subspecies present in the Western Ghats: 1
digit

Field 4: Total number of species described under the family in
the world: 3 digits

Field 5: Number of species under that family in the Western
Ghats: 2 digits

The computer used is the DEC-1090 of the Indian Institute of Science.

INFORMATION RETRIEVAL:

Several questions can be answered easily and quickly from such an information system. The key to retrieving any information is the Handbook Number. This, being the standard identity of any Indian bird, has been upheld.

If, for example, one wants to know which are the birds found at altitudes of 1200 m above MSL or more in the evergreen or shola type of forests on the Western Ghats or which are those found in the hill streams, one certainly can. The following 2

lists are answers to these questions. For the sake of those who are interested, a list of questions which our system can answer, has also been attached (see appendix 2).

00100	00042	POND HERON (ARDEOLA GRAYII)
00200	00053	TIGER BITTERN (GORSACHIVS MELANOLOPHUS)
00300	00058	BLACK BITTERN (DUPETER FLAVICOLLIS)
00400	00127	INDIAN BLACK CRESTED BAZA (VICEDA LEUPHOTES)
00500	00411	WOODCOCK (SCOLOPAX RUSTICOLA)
00600	00631	BROWN FISH OWL (BUBO CEYLONENSIS)
00700	00642	BROWN HAWK-OWL (NINOX SCUTULATA SUBSP.)
00800	00725	BLUE-EARED KINGFISHER (ALCEDO MENINTING)
00900	00726	CEYLON BLUE-EARED KINGFISHER (ALCEDO MENINTING SUBSP)
01000	00727	THREE-TUED FOREST KINGFISHER (CEYX ERITHACUS)
01100	00730	BROWNHEADED STURKBILLED KINGFISHER (PELAGOOPSIS CAPENSIS)
01200	00736	WHITEBREASTED KINGFISHER (HALCYON SMYRNENSIS)
01300	00739	BLACKCAPPED KINGFISHER (HALCYON PILEATA)
01400	00744	CHESTNUTHEADED BEE-EATER (MEROPS LESCHENAULTII)
01500	01057	INDIAN JUNGLE CROW (CORVUS MACRORHYNCHUS)
01600	01155	KERALA SPOTTED BABBLER (PELLORNEUM RUFICEPS SUBSP)
01700	01224	BLACKHEADED BABBLER (RHOPDOCICHLA ATRICEPS)
01800	01225	KERALA BLACKHEADED BABBLER (RHOPDOCICHLA ATRICEPS SUBSP)
01900	01409	RUFUSTAILED FLYCATCHER (MUSCICAPA RUFICAUDA)
02000	01442	TICKELL'S BLUE FLYCATCHER (MUSCICAPA TICKELLIAE)
02100	01445	VERDITER FLYCATCHER (MUSCICAPA THALASSINA)
02200	01446	NILIGIRI VERDITER FLYCATCHER (MUSCICAPA ALBICAUDATA)
02300	01449	GREYHEADED FLYCATCHER (CULICICAPA CEYLONENSIS)
02400	01460	HIMALAYAN PARADISE FLYCATCHER (TERPSIPHONE PARADISI)
02500	01461	PENINSULAR PARADISE FLYCATCHER (TERPSIPHONE PARADISI SUBSP)
02600	01465	INDIAN BLACKNAPED BLUE FLYCATCHER (MONARCHA AZUREA)
02700	01578	TYTLER'S LEAF WARBLER (PHYLLOSCOPUS TYTLERI)
02800	01605	BRIGHT GREEN LEAF WARBLER (PHYLLOSCOPUS TROCHILOIDES SUBSP)
02900	01650	INDIAN BLUECHAT (ERITHACUS BRUNNEUS)
03000	01726	INDIAN BLUE ROCK THRUSH (MONTICOLA SOLITARIUS)
03100	01728	MALABAR WHISTLING THRUSH (MYIOPHONOUS HORSFIELDII)
03200	01884	GREY WAGTAIL (MOTACILLA CASPICA)
03300	01891	LARGE PIED WAGTAIL (MOTACILLA MADERASPATENSIS)
03400	01931	LITTLE SPIDERHUNTER (ARACHNOTHEKA LONGIROSTRIS)
03500	02011	ROSEFINCH (CARPODACUS ERYTHRINUS)

BIRDS OF THE SHOJA / EVERGREEN FORESTS

ABOUT 1200 M MEL IN THE W. STATE

0100	00151	BESRA SPARROW HAWK(ACCIPTER VIRGATUS)
0200	00165	RUFIOUSBELLIED HAWKEAGLE(LOPHOTRIORCHIS KIENERII)
0300	00172	BLACK EAGLE(ICTINAETUS MALAYENSIS)
0400	00301	GREY JUNGLE FOWL(GALLUS SONNERATII)
0500	00496	GREYFRONTED GREEN PIGEON(TRERUN POMPADORA)
0600	00511	JEFFERSON'S IMPERIAL PIGEON (DUCELA BADIA)
0700	00521	MIDGIRY WOOD PIGEON (COLUMBA ELPHINSTONII)
0800	00564	BLUEWINGED PARAKEET(PSITTACULA COLUMBOIDES)
0900	00566	INDIAN LORIQUEET (LORICULUS VERNALIS)
1000	00569	REDWINGED CRESTED CUCKOO(CLAMATOR CORMANDUS)
1100	00602	COUCAL /CROW PHEASANT(CENTROPUS SINENSIS)
1200	00659	BROWN WOOD OWL (STRIX LEPTOGRAMMICA)
1300	00666	CEYLON FROGMOUTH (BATRACHOSTOMUS MONILIGER)
1400	00691	BROWNTHOATED SPINETAILED SWIFT(CHAETURA GIGANTEA)
1500	00711	MALABAR TROGON(HARPACTES FASCIATUS)
1600	00725	BLUE-EARED KINGFISHER (ALCEDO MENINTING)
1700	00753	BLUEBEARDED BEE-EATER(NYCTIORNIS ATHERTALIS)
1800	00768	MALABAR GREY HORNBILL (TOCUS GRISEUS)
1900	00776	GREAT INDIAN HORNBILL(BUCERUS BICORNIS)
2000	00782	CEYLON GREEN BARBET (MEGALAIMA ZEYLANICA SUBSUP)
2100	00785	SMALL GREEN BARBET(MEGALAIMA VIRIDIS)
2200	00790	CRIMSONTHROATED BARBET(MEGALAIMA RUBRICAPILLA)
2300	00799	SPECKLED PICULET (PICUMNUS INNOMINATUS)
2400	00816	INDIAN SMALL YELLOWNAPED WOODPECKER(PICUS CHLOROLOPHUS)
2500	00825	MALABAR GOLDENBACKED 3 TOED WOODPECKER(DINOPIUM JAVANENSE)
2600	00830	INDIAN GREAT BLACK WOODPECKER(DRYOCOPUS JAVENSIS)
2700	00862	LARGER GOLDENBACKED WOODPECKER(CHRYSOCOLAPTES LUCIDUS)
2800	00953	INDIAN GOLDEN ORIOLE (ORIOULUS ORIOULUS)
2900	00965	INDIAN GREY DRONGO (DICRURUS LEUCOPHAEUS)
3000	00971	BRONZED DRONGO (DICRURUS AENEUS)
3100	00977	LARGE RACKET TAILED DRONGO (DICRURUS PARADISEUS)
3200	01016	HILL MYNA (GRACULA RELIGIOSA)
3300	01036	WHITEBELLIED TREE PIE (DENDROCITTA LEUCOGASTRA)
3400	01057	INDIAN JUNGLE CROW(CORVUS MACROHYNCHOS)
3500	01066	CEYLON PIED FLYCATCHER SHRIKE(HEMIPUS PICATUS SUBSP)
3600	01068	MALABAR WOODSHRIKE(TEPHRODORNIS GULARIS)
3700	01081	ORANGE MINIVET(PERICROCOTUS FLAMMEUS)
3800	01104	GOLDFRONTED CHLOROPSIS(CHLOROPSIS AURIFRONS)
3900	01105	CEYLON GOLDFRONTED CHLOROPSIS(CHLOROPSIS AURIFRONS SUBSP)
4000	01109	FAIRY BLUEBIRD (IRENA PUELLA)
4100	01114	GREYHEADED BULBUL(PYCNONOTUS PRIOCEPHALUS)
4200	01116	RUBYTHROATED BULBUL(PYCNONOTUS MELANICTERUS)
4300	01120	REDWHISKERED BULBUL(PYCNONOTUS JUCOSUS)
4400	01143	SAHYADRI YELLOW BROWED BULBUL(HYPSIPETES INDICUS SUBSP)
4500	01144	YELLOWBROWED BULBUL (HYPSIPETES INDICUS)
4600	01149	BLACK BULBUL (HYPSIPETES MADAGASCARIENSIS)
4700	01154	PENNINSULAR SPOTTED BABBLED(PELLORNEUM RUFICEPS)
4800	01155	KERALA SPOTTED BABBLED(PELLORNEUM RUFICEPS SUBSP)
4900	01174	KERALA SCIMITAR BABBLED(POMATORHINUS SCHISTICEPS)
5000	01224	BLACKHEADED BABBLED(RHOPOCICHLA ATRICEPS)
5100	01225	KERALA BLACKHEADED BABBLED (RHOPOCICHLA ATRICEPS SUBSP)
5200	01287	WYNAAD LAUGHING THRUSH(GARRULAX DELESSERTI)
5300	01307	MILIGIRI LAUGHING THRUSH(GARRULAX CAGHINNANS)

BIRDS FOUND A LONG HILL STREAMS ON

W.G.HATS

05400 01309 COORG WHITEBREASTED LAUGHING THRUSH(GARRULAX JERDONI)
05500 01390 NILGIRI QUAKER BABBLER(ALCIPPE POLOICEPHALA)
05600 01407 BROWN FLYCATCHER(MUSCICAPA LATIROSTRIS)
05700 01408 BROWNBREASTED FLYCATCHER(MUSCICAPA MUTTOLI)
05800 01435 WHITEBELLED BLUE FLYCATCHER(MUSCICAPA PALLIPES)

07200 01734 WHITETHROATED GROUND THRUSH(ZOOTHERA CITRINA)
07300 01742 NILIGIRI THRUSH (ZOOTHERA DAUMA)
07400 01838 VELVETFRONTED NUTHATCH(SITTA FRONTALIS)
07500 01874 FOREST WAGTAIL (MOTACILLA INDICA)
07600 01902 NILIGIRI FLOWERPECKER (DICAEUM CONCOLOR)
07700 01909 SMALL SUNBIRD(NECTARINIA MINIMA)
07800 01931 LITTLE SPIDERHUNTER(ARACHNOTHERA LONGIROSTRIS)

CHECKLISTS:

Checklists are very important in any information system as they are the basic or foundation material that can be made available. Four checklists were included in the appendix of the earlier report. These have been revised and therefore included in this report.

1. The Birds of the Western Ghats

The present list contains 530 forms of birds. This has been very carefully compiled based on field observation and literature. More than 10 have been deleted from the earlier list of 516 forms and many have been added to complete the present list.

2. The Birds of Kerala

This contains the 372 forms given by Ali, S.(1969). Those species doubtfully reported from that state have been omitted from the list.

3. The Birds of Uttara Kannada

This list is a result of field observations made by just three people viz., Davidson (1898), Koenig (1942) and one of the authors for 3 years since 1983. The present list contains 385 forms.

4. The Birds of Goa

This contains only 142 forms of birds. This is very incomplete as the efforts that have gone into studying the birds of Goa is meagre. Grubb and Ali (1976), Rane (1983) and one of the authors have contributed to this list.

00100	00005	LITTLE GREBE (PUDICEPS RUFICOLLIS)
00200	00012	PERSTAN SHEARWATER (PROCELLARIA LHERMINIERI)
00300	00014	WILSON'S STORM PETREL (OCEANITES OCEANICUS)
00400	00021	GREY PELICAN (PEDECANUS PHILIPPENSIS)
00500	00023	MASKED BOOBY (SULA DATYLATRA)
00600	00026	LARGE CORMORANT (PHALACROCORAX CARBO)
00700	00027	INDIAN SHAG (PHALACROCORAX FUSCICOLLIS)
00800	00028	LITTLE CORMORANT (PHALACROCORAX NIGER)
00900	00029	DARTER (ANHINGA RUFA)
01000	00031	LESSER FRIGATE BIRD (FREGATA MINOR)
01100	00036	GREY HERON (ARDEA CINEREA)
01200	00037	PURPLE HERON (ARDEA PURPUREA)
01300	00038	LITTLE GREEN HERON (BOTURIDES STRIATUS)
01400	00042	WOOD HERON (ARDEOLA GRAYII)
01500	00044	CATTLE EGRET (BOBOLIVUS IBIUS)
01600	00046	LARGE EGRET (EGRETTA ALBA)
01700	00047	SMALLER EGRET (EGRETTA INTERMEDIA)
01800	00049	LITTLE EGRET (EGRETTA GARZETTA)
01900	00050	INDIAN REEF HERON (EGRETTA GULARIS)
02000	00052	NIGHT HERON (NYCTICORAX NYCTICORAX)
02100	00053	TIGER BITTERN (GORSACHIUS MELANODORPHUS)
02200	00056	CHESTNUT BITTERN (IXOBRYCHUS CINNAMOMEUS)
02300	00057	YELLOW BITTERN (IXOBRYCHUS SINENSIS)
02400	00058	BLACK BITTERN (DUPTER FLAVICOLLIS)
02500	00059	BITTERN (BOTAURUS STELLARIS)
02600	00060	PAINTED STORK (IBIS LEUCOCEPHALUS)
02700	00061	ORPENTOL STORK (ANASTORUS OSCITANS)
02800	00062	RED NECKED STORK (CICUSIA EPISCOPUS)
02900	00068	LESSER ADJUTANT STORK (LEPTOPTILUS JAVANICUS)
03000	00069	WHITE IBIS (THRESKIORNIS MELANOCEPHALA)
03100	00070	BLACK IBIS (PSEUDIBIS PAPILOSA)

COMPUTERIZED MAPPING:

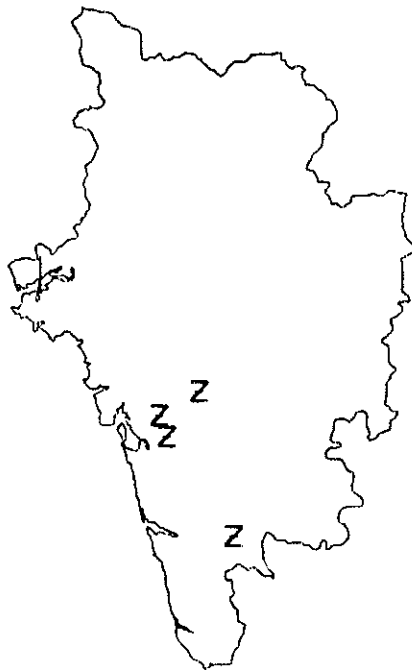

A map showing the distribution of a species over a region is often more convincing and easier to conceive than anything else. Every known species from an area should also have a distribution map to go with it to make the information system complete. We have made an attempt to produce computerized maps and have chosen Uttara Kannada district for this purpose.

A Uttara Kannada map drawn to the scale 1:250,000 was divided into grids and thus a 280x280 matrix was developed. The coordinates of the map were then read in a y,x fashion and stored on the magnetic tape of the computer. Using a CALCOMP PLOTTER, a clear outline of the district was obtained. This plotter enables us to draw the map to any convenient scale. Though we have not produced maps to show the distribution of all 385 forms of Uttara Kannada, we have tried to map a few important ones. The Ceylon frogmouth (Ratrachasromus moniliger) and the Great Indian hornbill (Buceros bicornis) have very patchy distribution over the district. The following 2 maps give the so far known distribution of the 2 species over the entire district.

CEYLON FROGMOUTH

GREAT INDIAN HORNBILL

APPENDIX 1

Sclater's Zoogeographical Regions of the World

1. Australian region: Australia, Tasmania, New Zealand, Celebes and adjacent Islands.
2. Ethiopian region: Africa (except the extreme North) and Southern Arabia.
3. Nearctic region: North America South to Central Mexico; Greenland.
4. Neotropical region: Southern Mexico; South and Central America.
5. Oriental region: India, Srilanka, Burma, Bangladesh, Nepal, Bhutan. Indochina, Indonesia, Taiwan and Philippines.
6. Palearctic region: Temperate Eurasia, Africa-North of Mt. Atlas and most of Pakistan.

The Oriental Region (Hewari, 1985)

1. Sri Lanka
2. India - excluding the extreme north above Jammu and also Sikkim.
3. Nepal, Sikkim and Bhutan
4. Bangladesh

5. Burma
6. Indochina - Thailand, Malaya, Vietnam, Laos and Cambodia
7. Indonesia - Borneo, Sarawak, Sumatra and Java
8. Taiwan - includes Yunnan plateau of Southern China.
9. Philippines

Indian Subregion (Tiwari, 1945)

1. Deccan - The peninsula east of Malabar
2. Malabar - Western Ghats
3. Indus Plain - Punjab, Rajasthan, West of Aravalli range and Yamuna river, Kutch and northern Gujarat.
4. Ganges Plain - from Aravalli hills eastward to Bengal, Sunderlands and Orissa - North of river Mahanadi.
5. Assam - Brahmaputra and Burma valley, Khasi hills etc.
6. Eastern Himalayas - Sikkim eastward. The most humid part of the Himalayas.
7. Western Himalayas - Sub-Himalayan tract from Kumaon to Kashmir.
8. Andamans - Andaman and Nicobar Islands.

Western Ghats

The four subregions of the Western Ghats are

1. The northern Sahyadris,

2. The southern Sahydris,
3. The Nilgiris and
4. The southern Ghats.

APPENDIX 2

A list of questions our system can answer.

1. Which are the resident birds of the Western Ghats?
2. Which are the winter visitors to the region?
3. Which birds are exclusively seen in rocky hill tops and cliffs?
4. Which are the grassland birds?
5. Which birds may be found along the seashore on the west coast?
6. Where do most of the winter visitors choose to spend their winter on the Western Ghats?
7. Which are the birds found in cultivated areas?
8. There are many closely related species of birds on the Western Ghats. For example there are 11 species of woodpeckers. Do they have different habitat preferences? How different are they in size from each other?
9. Do similar species have different altitudinal preferences?
10. Which are the exclusively oriental species?
11. How widely a species is distributed over the world?
12. Are there monotypic families on the western ghats?

13. How many monotypic species are there on the Western Ghats?

14. Are the monotypic species widely distributed over the world?

15. Which family has the most endangered species?

These 15 questions are just examples. There are many more than can be answered.
