## **BIODIVERSITY OF INSECTS IN CHRIST AND DHARMARAM CAMPUS**

Shabana, Rakshitha .I. Narayan and Sunpriya .S

Christ Junior College

The project aims to know the biodiversity of insect in Christ and Dharmaram campus hence the survey of insects is done through a field trip in the campus and making a list, followed by classifying them into different groups based on their family and preserving them using a chart for the display of the project and also it involves taking photographs of the whole process and documenting in form of PowerPoint presentation which will be used for explanation of the project.

Dead or live specimens and Photographs
