CES/TVR/Lake-16/SEC-01 /2016

Date: 01-12-2016

To

Dear Sir/Madam,

Subject: Biodiversity' documentation, Uttara Kannada: Selection of students for participation in Lake Conference -2016, 28-30 December 2016 at Alva's Education Foundation, Moodbidri.

We are happy to note that your institution has encouraged your students to carry out biodiversity related studies in villages and made them present their studies at CES Field Station at Kumta of Indian Institute of Science, Bangalore, during 28-29 November, 2016. Performance of the students is encouraging and therefore we wish to encourage as many participants to attend the Lake Conference at Moodbidri during 28-30 December, 2016.

The list of students from your school selected for oral presentation of their studies and for poster presentation is given in the Table below:

Student Name and Class	Village selected	Type of presentation to be made

Encouraging other students: Other participants from your school, who have also made studies, but did not get selection, are also eligible for poster presentation, if they wish, as this is a rare opportunity for them to attend a national conference:

- They have to collect some more data from the villages where they worked and prepare a poster and bring the same to our office for approval and for making changes if necessary. The poster may be soft copy prepared with the help of the teacher.
- The poster should be prepared within ten days time and brought personally by the students concerned to our office for approval and making changes if necessary.

Please note the following instructions:

- The students who worked for preparing the report, and who attended the meetings during 28-29 November 2016 at our office are only eligible for reconsideration
- One teacher from the institution who actually guided the student/s may accompany the student
- The student will be given only 12 minutes for final presentation
- Best presentations, will be given **Sahyadri Young Ecologist Award -2016**
- Best posters by students will be eligible for prizes.
- Even if a student does not get a **prize** his participation in a national conference will be a good encouragement for those who took interest in the village level biodiversity studies.
- School uniform is compulsory during presentation time.

Venue and dates

The final conference will be held in the V.S. Acharya Auditorium, Alva's Education Foundation. Sundari Alva Campus, Vidyagiri, Moodbidri, D.K., Karnataka- pin: 574 227, during 28-30 December 2016.

Travel

Students and accompanying teachers (limited to one person from an institution) will be given actual travel charges, preferably by railway, on production of tickets

Accommodation and food

Stay and food arrangements will be free of cost for all selected participant students and teachers

Time for presentation

For presenting the work done on each village maximum of 12 minutes will be allotted

Prize giving

Prizes will be given in the evening of 30 December 2016 during the valedictory function

Teachers' presentation

Every teacher who actually guided the students, as mentioned in their study reports, will be given 7 minutes time for making presentation of their valuable experiences.

With best regards,

Yours sincerely,
